1 Introduction

In this chapter you find the following information:

1.1	About this User Manual	page 4
	Access Helps and Conventions	
	Certification	
	Warranty	
	Support	
	Registered Trademarks	

1.1 About this User Manual

1.1.1 Access Helps and Conventions

To find information quickly

The user manual provides you the following access helps:

- > at the beginning of each chapter you will find a summary of its contents,
- > in the header you see the current chapter and section,
- > in the footer you see to which program version the user manual replies,
- > at the end of the user manual you will find an index.

Reference: Please refer to the online help for detailed information on all topics.

Conventions

In the two following charts you will find the conventions used in the user manual regarding utilized spellings and symbols.

Style	Utilization
bold	Blocks, surface elements, window- and dialog names of the software. Accentuation of warnings and advices. [OK] Push buttons in brackets File Save Notation for menus and menu entries
CANoe	Legally protected proper names and side notes.
Source code	File name and source code.
Hyperlink	Hyperlinks and references.
<STRG>+<S>	Notation for shortcuts.
Symbol	Utilization
	Here you can obtain supplemental information.
	This symbol calls your attention to warnings.
	Here you can find additional information.
	Here is an example that has been prepared for you.
	Step-by-step instructions provide assistance at these points.
	Instructions on editing files are found at these points.
	This symbol warns you not to edit the specified file.

Symbol	Utilization
	This symbol indicates multimedia files like e.g. video clips.
	This symbol indicates an introduction into a specific topic.
	This symbol indicates text areas containing basic knowledge.
	This symbol indicates text areas containing expert knowledge.
	This symbol indicates that something has changed.

1.1.2 Certification

Certified Quality Management System

Vector Informatik GmbH has ISO 9001:2008 certification.
The ISO standard is a globally recognized quality standard.

1.1.3 Warranty

Restriction of warranty

We reserve the right to change the contents of the documentation and the software without notice. Vector Informatik GmbH assumes no liability for correct contents or damages which are resulted from the usage of the user manual. We are grateful for references to mistakes or for suggestions for improvement to be able to offer you even more efficient products in the future.

1.1.4 Support

You need support?

You can get through to our hotline at the phone number
+49 (711) 80670-200
or you send a problem report to the [CANoe Support](#).

1.1.5 Registered Trademarks

Registered trademarks

All trademarks mentioned in this user manual and if necessary third party registered are absolutely subject to the conditions of each valid label right and the rights of particular registered proprietor. All trademarks, trade names or company names are or can be trademarks or registered trademarks of their particular proprietors. All rights which are not expressly allowed are reserved. If an explicit label of trademarks, which are used in this user manual, fails, this should not mean that a name is free of third party rights.

- > **Windows, Windows XP, Windows Vista** and **Windows 7** are trademarks of the Microsoft Corporation.
- > **vTESTstudio** is a trademark of Vector Informatik GmbH.

2 Installation

This chapter contains the following information:

2.1	System Requirements	page 8
2.2	Installation Procedure	page 8
2.3	Notes on Activating a Software Based License	page 9
2.4	Vector Keyman (License Dongle)	page 10
2.5	Switching Language Versions	page 10

2.1 System Requirements

The following system configuration is recommended for use with **vTESTstudio**:

Processor	Intel Core i5 3,0 GHz (Minimum: Intel Core 2 Duo 2,6 GHz)
Memory (RAM)	4 GB (minimum: 1 GB)
Hard disk space	approx. 1,5 GB
Monitor resolution	1280×1024 pixels (minimum: 1024×768 pixels)
Operating system	Windows 8/7/Vista/XP SP3 (Vista and XP only 32 Bit)

Note: Administrator rights are needed to install **vTESTstudio**.

2.2 Installation Procedure

How to start the installation...

Please take the following steps to install the **vTESTstudio** software:

1. Place the **vTESTstudio** installation DVD in your DVD drive.

A Start window will appear, in which you can start the software installation.

If your computer is not configured to automatically launch Start windows, you can launch the installation program **SETUP.EXE** from the **Application** folder on the DVD.

2. Follow the installation program instructions.

Registration

You can find the information for the program registration (**Company**, **Key**, **SerialNr.**) on the backside of your **vTESTstudio** DVD jewel case.

Note: For the installation of **vTESTstudio** you need administrator rights.

If you are logged on as standard user (with standard user rights), you have to start the **vTESTstudio** installation program **Setup.exe** from the Explorer directly. A dialog is opened to be logged on as a user with administrator rights. After that the installation routine can be executed successfully.

2.3 Notes on Activating a Software Based License

Licensing

The software product you are about to install requires a license.

The license protection method depends on the product:

- > **Hardware based license protection**
The license becomes available when either the license dongle or a bus interface hardware is inserted/plugged.
- > **Software based license protection**
An Activation ID is delivered with your product and must be activated before usage.

The respective license protection is chosen when ordering the product.

Activation ID

If the product is delivered with a software based license protection, you will find a sticker on the DVD cover, which shows an **Activation ID** of one of the following formats (examples given):

- > A-1A2B3C4D5F6G7-1A2B3C4D5F6G7
- > ACT-0000012345-000012-123456

After installing the software you will need this **Activation ID** to activate the license on your PC.

Activating a license

Start the **Vector License Manager** via the **Start** menu and make your selections there.

At one point you are asked to enter the **Activation ID**. Enter the **Activation ID** exactly as printed on the sticker found on the DVD cover.

After the license has been activated successfully, you can start working with your application.

Help & support

Further help on activating a license is available by pressing the **[Help]** button in the **Vector License Manager**.

If you need further assistance with activating a license (e.g. when you do not have Internet access from your machine to activate the license online) please direct your questions to: activation@vector.com

2.4 Vector Keyman (License Dongle)

**How to install the Vector Keyman**

Note: The **Vector Keyman** must not be connected during the installation.

1. Run the setup file **Setup.exe**.
The file is in the **Drivers\Drivers** folder on the DVD.
Installing this file may take a little while (up to 4 minutes).
2. Under **Miscellaneous** you have to select **Vector Keyman (License Dongle)**.
3. You need to reboot your computer when the installation is complete.
4. Plug the **Vector Keyman** into the USB port.

Note: You can also search for a current driver in the Vector Download Center. Install the driver with the downloaded program **Setup.exe** afterwards.

2.5 Switching Language Versions

Configuration

The German and English language versions are installed.

You can set the language for all of the program features and the Help (menu path: **Tools|Options...|General|Appearance**).

You need to close and then re-start **vTESTstudio** for the changes to become effective.

3 Appendix A: Support

Need support?

Our hotline can be reached

- > by calling +49 (711) 80670-200
- > by e-mail (support@vector-informatik.de)
- > or by filling out our [Problem Report](#) form online

What our support team needs to know

To answer your support questions quickly, whether by phone, e-mail, fax or mail, we require the following information:

Software

- > Detailed description of the software, e.g., **vTESTstudio 1.0**
- > Serial number

Note: You will find this information in **vTESTstudio** under **Help|Info**.

Computer

- > Detailed description (e.g. **Dell Latitude D830**)
- > Laptop or desktop PC
- > Operating system (e.g. **Windows 7**, SP 1)
- > Processor type and speed (e.g. **Intel Core i5**, 3,0 GHz)
- > Memory (e.g. 4 GB RAM)

Error description

- > What problems occurred?
- > Which configuration did these problems occur with?
- > Are you getting error messages in the software, e.g. in the Write window?

Customer data

- > Company, company address
- > First name, last name
- > Department
- > Telephone number, fax number, e-mail address
